ABOUT

A flexible front-end developer with experience in front-end programming. Shown ability to design and be skilled in creating responsive, simple, and user-friendly websites. Devoted to innovation while maintaining a user-centric perspective, guaranteeing smooth communication with clients and emphasizing improving user experiences. I am passionate about continuous learning and embracing new technologies to enhance my skills and stay updated in a rapidly evolving industry.

TECHNICAL PROJECTS / ACHIEVEMENTS

Portfolio Website: Created a responsive personal portfolio using HTML, CSS, and JavaScript to showcase projects and skills, featuring interactive elements and optimized for performance. Designed with a responsive layout to ensure compatibility across devices. [Live Demo](#)

Other Projects: Created multiple website designs using Figma, developed a basic e-commerce website with product listings, shopping cart functionality, and responsive design, and built a simple JavaScript app to count and track the number of people, showcasing basic functionality.
